

**BOROUGH OF WILMERDING
NOTES FROM THE MARCH 1, 2016 WORKSHOP**

ENGINEER – D. GILLILAND:

1. The county has agreed to fund the project on Ice Plant Hill. The contractor has agreed to hold to the bid price but they may not get here until mid-summer because their crews are already committed to other projects. Don is working with Duquesne Light to move the lights. You may want to make a motion subject to the county issuing agreements.

MR. S. SHURGOT: I received an e-mail from Michael Dillon from the county that he hoped to have the agreement here for tonight's meeting but is under review by their legal department.

2. The 2016 sewer project is 80% complete.
3. Bids were opened at COG on February 25th for the demolition of 104 State Street. Three bids were received and the lowest bidder was Everyready Contracting at \$9,450. They have done excellent work for us in the past and their price is fair and reasonable. The CD grant is for \$8,767.00 therefore the borough would have to contribute \$683 to fully fund this work.
4. We have obtained quotes to replace the public works door. The lowest proposal was from AGL Enterprises for \$2,953.00.

BOROUGH PROPERTY – S. SMITH: K. Brunner is working on the lock for the front door.

Can we hold off on the public works door until next month?

SOLICITOR – G. EVASHAVIK: the PennDOT loan for paving is finished and has been sent in.

I have reviewed the agreement from Turtle Creek COG on providing code enforcement services to the borough and the document is good to go.

MR. S. SHURGOT: they will start on May 1st.

MR. G. EVASHAVIK: i reviewed the law concerning the Fire Marshal position and what certifications they would need. The Borough Code does provide for this position and there is no state law that states that position needs to be certified. There are organizations out there that provide certifications for Fire Marshal and it would be up to Council what certifications you would require. There is a contrast between the International Fire Code and the Borough Code in the name of that position.
