WILMERDING BOROUGH EMERGENCY PROCLAMATION

Subject: COVID-19 Number: 2020-8

Date: December 11, 2020

WHEREAS the COVID-19 pandemic has created a national emergency in the United States of America; and

WHEREAS, following an initial curtailing of COVID-19 spread due to the Borough's and the Commonwealth's mitigation efforts, a second wave began in the summer months; and

WHEREAS, despite all efforts taken to date, the pandemic continues to spread and, and taking action to prevent the spread while allowing for the necessary resumption of economic and social activity requires the Borough to take steps to minimize the danger to all citizens to Wilmerding as a result in participating in that activity; and

WHEREAS further immediate action is required to mitigate the imminent spread of the disease. And associated health hazards presented by COVID-19, and to enforce the protections necessary to support the response of Wilmerding and the Commonwealth to the threat of COVID-19; and

NOW, THEREFORE, the Borough of Wilmerding does hereby ORDER and PROCLAIM as Follows:

- All in-person indoor dining at businesses in the retail food services industry, including, but not limited to, bars, restaurants, breweries, wineries, distilleries, social clubs, and private catered events is prohibited.
- Outdoor dining, take-out food service, and take-out alcohol sales are permitted and may continue, subject to any limitations or restrictions imposed by Pennsylvania law, or this or any other Order issued by the Sec. of Health or by the governor.
- All, indoor consumption of alcohol is prohibited in all the above.

Indoor Gatherings and Events:

- Indoor gatherings and events of more than 10 persons are prohibited.
- Churches, synagogues, temples, mosques, and other places of congregated worship are specifically excluded from the limitations set forth above during religious services, these institutions are strongly encouraged to find alternative methods for worship, as in person gatherings pose a significant risk to participants at this time. While this an incredibly difficult recommendation to make, particularly at this time of year, faith leaders must carefully weigh the health risks to their congregants given the immense amount of community spread of COVID-19.

Outdoor Gatherings and Events:

- Outdoor gatherings and events of more than 50 persons are prohibited.

According to a [Yale University study](#), limiting outdoor gatherings was among consistent policies found to reduce fatality rates.

The [CDC](#) states that medium-sized outdoor gatherings carry a higher risk of COVID-19 spread, even with social distancing. CDC notes that the more people an individual interacts with at a gathering and the longer that interaction lasts, the higher the potential risk of becoming infected with COVID-19 and COVID-19 spreading, and that the higher the level of community transmission in the area that the gathering is being held, the higher the risk of COVID-19 spreading during a gathering.

Capacity Limits for Businesses:

- All in-person businesses serving the public may only operate at up to 50% of the maximum capacity stated on the applicable certificate of occupancy, except as limited by existing orders to a smaller capacity limit.

The same Stanford University [study](#) that collected cellphone data also noted that limiting indoor capacity can reduce COVID-19 transmissions.

Gyms and Fitness Facilities:

- Indoor operations at gyms and fitness facilities are prohibited.
- Outdoor facilities and outdoor classes can continue, but all participants must wear face coverings in accordance with the Sec. of Health's [Updated Order Requiring Universal Face Coverings](#), including any subsequent amendments, and practice physical distancing requirements.

According to a [Yale University study](#), closing businesses like gyms was among consistent policies found to reduce fatality rates.

Entertainment Industry:

- All in-person businesses in the entertainment industry serving the public within a building or indoor defined area, including, but not limited to, theaters, concert venues, museums, movie theaters, arcades, casinos, bowling alleys, private clubs, and all other similar entertainment, recreational or social facilities, are prohibited from operation.

The CDC puts movie theaters and other indoor settings on its [list of higher-risk activities](#) for contracting COVID-19.

In-Person Extracurricular School Activities:

- Voluntary activities sponsored or approved by a school entity's governing body or administration are suspended, but these extracurricular activities may be held virtually. This includes, but is not limited to, attendance at or participation in activities such as musical ensembles, school plays, student council, clubs, and school dances.

Our top priority is stopping the spread of this virus so students and teachers can return to their classrooms as soon as possible. Data from the Department of Health notes that one-quarter of the cases of COVID among school-age children have occurred within the past two weeks, increasing the need to keep children safe outside of school so that they can return to classrooms.

K-12 School Sports and Youth Sports:

- All sports at K-12 public schools, nonpublic schools, private schools and club, travel, recreational, intermural, and intramural sports are paused.

The Pennsylvania Principals Association is recommending a delay to the start of the winter sports season. The [surge in cases](#) among school-age children increases the risk that asymptomatic participants will spread the virus at a game or practice, in the locker room, while traveling to and from events, or at team meals, parties or other gatherings.

- Professional or collegiate sports activities may continue in accordance with guidance from the CDC and the Department of Health.
- Spectators may not attend such sports activities in person.

EFFECT on Existing orders.

This order suspends and supersedes any of prior orders and advisories that are in conflict of these requirements of the Pennsylvania that Wilmerding was following, including Sections 3, 4, 5, 7 and 9 of the *Governors orders of for Mitigation, Enforcement, and Immunity Protections*, dated November 23, 2020, for the period this order is in effect. Those provisions shall remain in effect in their entirety upon this orders termination. All other provisions of the November 23, 2020 order remain in effect. When this order expires, Wilmerding will once again follow all the guidelines of the Allegheny County Health Department and the Pennsylvania Department of Health.

Effective Date and Duration

This order shall take effect at 12:01 a.m. on December 12, 2020, and shall remain in effect until 8:00 a.m. on January 4, 2021.

Given by the Mayor and Council of Wilmerding on this 11th day of December two thousand and twenty.
